PROFESSIONAL SUMMARY

Java Full Stack Developer with 3 years of professional Java experience in enterprise application development. Works across frontend and backend layers, collaborating with cross-functional teams to turn business requirements into reliable features and support them through implementation, integration, troubleshooting, and maintenance.

TECHNICAL SKILLS

Backend: Java, Spring Boot, Spring Data JPA, Hibernate, REST APIs
Frontend: React.js, JavaScript, HTML, CSS, jQuery, JSP
Databases: Oracle, SQL Server, SQL querying and optimization
Tools: Maven, Git/GitHub, Postman
Practices: OOP, MVC, Agile/Scrum, debugging, production support

PROFESSIONAL EXPERIENCE

Software Engineer | Cognizant Technology Solutions Sep 2023 – Present | Chennai, India

Client: Savvas Learning Company (K-12 EdTech) | Progression: Software Engineer Trainee → Junior Software Engineer → Software Engineer

Java / Spring Boot Full-Stack Development Sep 2023 – Jan 2026

- Developed and maintained full-stack features across multiple internal and customer-facing enterprise applications using React, Java, Spring Boot, Spring Data JPA, and Oracle.
- Built the multi-step Free With Order (FWO) workflow in the Sample Order System, routing requests above USD 3,000 to finance approval and lower-value orders to SF.com for processing.
- Delivered application enhancements across contract administration in CAMS, B2B contract creation, product search, sales, sampling, and related enterprise business workflows.
- Implemented business rules and data validation, including region-specific and ISBN-based product restrictions across sales, rights, and sampling workflows for US and international markets.
- Built reconciliation and audit functionality to identify discrepancies between SAP and CAMS; resolved application defects and worked with REST APIs, Maven, and Git in Agile delivery.
- Continued recurring Java/Spring Boot contributions to the same enterprise project during most of Feb 1–Oct 15, 2026; returned to the project on Oct 16, 2026.

Software Engineer Intern | Cognizant Technology Solutions Jan 2023 – Jun 2023 | Chennai, India

- Completed a six-month Java internship using Spring Boot, Spring Data JPA, and Hibernate, applying object-oriented programming and MVC concepts.
- Developed, tested, and debugged server-side features and JSP interfaces using HTML, CSS, and jQuery.

PROJECTS

UniERP - Multi-tenant ERP Platform (Personal project, in progress) | github.com/kannan19302/UniERP

- Building UniERP as an open-source, self-hostable multi-tenant ERP in active development, with separate web, API, and data layers, shared API contracts, and tenant-aware persistence.
- Frontend and API stack: Next.js, React, TypeScript, and NestJS; data and background jobs: PostgreSQL, Prisma, Redis, and BullMQ.
- Added a separate Java 21 / Spring Boot 3.3 banking-service module for tenant-scoped bank accounts, statement ingestion and reconciliation, and idempotent payment flows; clearing-house dispatch is simulated.
- Project test suites include Vitest / Playwright and JUnit / Mockito. Use Codex, Antigravity, and Claude as project-only development aids, reviewing suggestions before integration.

EDUCATION

B.E., Electronics & Communication Engineering 2019 – 2023

Dr. Mahalingam College of Engineering & Technology, Pollachi

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900) | Microsoft Certified: Azure Data Fundamentals (DP-900)
